1. Protective Functions:

As the name suggests, the main focus of this function of SEBI is to protect the interest of investor and security of their investment

As protective functions SEBI performs following functions:

(i) SEBI checks Price Rigging:

Price Rigging means some people manipulate the prices of securities for inflation or depressing the market price of securities. SEBI prohibits such practice to avoid fraud and cheating which can happen to any investor.

(ii) SEBI prohibits Insider trading:

Any person which is connected with a company such as directors, promoters, workers etc is called Insiders. Due to working in the company they have sensitive information which affects the prices of the securities. Such information is not available to people at large but Insider gets this key full knowledge by working in such company. Insider can use this information for their personal benefits or make a profit from it, such process is known as Insider Trading.

For Example - Managers or Directors of a company may know that company will issue Bonus shares to its shareholders at a particular time and they purchase shares from market to make a profit with bonus issue.

SEBI always restricts these types of practices when Insiders are buying securities of the company and take strict action to avoid this in future.

(iii) SEBI prohibits fraudulent and Unfair Trade Practices:

SEBI always restricts the companies which make misleading statements which are likely to induce the sale or purchase of securities by any other person.

(iv) SEBI sometimes educate the investors so that become able to evaluate the securities and always invest in profitable securities.
